25X1A

The outside shell casing measures 200 mm in length and 92 mm in width; the warhead measures 100 mm in length and 88 mm in width. The casing is copper-plated, with a thickness of 2 mm.

25X1A

**Comment:** No information could be obtained concerning the type of filling used in the shell.)

25X1A **Comment:** Confirmation that shell is 88 mm may be an indication that the Russians now consider the German 88 mm superior to the Russian 85 mm.)
